## HEAT FLASHES, DIZZY, NERVOUS

**Mrs. Wynn Tells How Lydia E. Pinkham's Vegetable Compound Helped Her During Change of Life.**

Richmond, Va.—"After taking seven bottles of Lydia E. Pinkham's Vegetable Compound I feel like a new woman. I always had a headache during the change of life and was also troubled with other bad feelings common at that time—dizzy spells, nervous feelings and heat flashes. Now I am in better health than I ever was and recommend your remedies to all my friends."—Mrs. LENA WYNN, 2812 E. O Street, Richmond, Va.

While Change of Life is a most critical period of a woman's existence, the annoying symptoms which accompany it may be controlled, and normal health restored by the timely use of Lydia E. Pinkham's Vegetable Compound. Such warning symptoms are a sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and dizziness.

For these abnormal conditions do not fail to take Lydia E. Pinkham's Vegetable Compound.

### Important Happenings and Local Notes from the County Seat.

#### "Good Roads" at Y. M. I. C.

The second entertainment of the winter was Good Roads night, which occurred at the club rooms Tuesday evening, Feb. 1st. The speakers were Gov. Chas. W. Gates and State Road Commissioner Stoddard B. Bates, whom the club president, Hon. F. C. Williams introduced. Mr. Bates was introduced as an apt pupil of a good teacher and spoke upon road-building in Vermont, and compared it with that of other states, giving much statistical information regarding the expense of same. He emphasized the importance of maintaining the good roads already built and suggested the advisability of some system of road patrol such as is advantageously practiced by some other states. In the introduction of Governor Gates, Mr. Williams styled him as the father of the present road law and the man to whom the present system of good roads in Vermont is due. Governor Gates spoke for about thirty minutes and while not disclaiming responsibility for some of our road laws he strongly affirmed that the success of road-building in Vermont was due to the fact that it was controlled by the town unit which interested every taxpayer. He exhorted his hearers to keep up their interest in municipal and state affairs and always to get out and vote. After the addresses an informal reception was held and cigars and apples enjoyed. About 100 were present. Newport can justly be proud of this live institution.

#### Community Building.

The Newport board of trade have secured the services of Ben R. Vardman of national reputation to address the citizens along lines of community building. The Pastime theatre has been engaged as the place for Dr. Vardman's talk. The time will be Wednesday evening, Feb. 16th, with no admission charge. The progressive citizen who fails to avail himself of the opportunity to hear this talk will lose much of his progressiveness.

#### NEWPORT

Mrs. E. J. Prouty is in Boston for a few days.

A. R. Grow's little girl is quite sick at this time.

C. M. Bailey was in North Troy Friday on business.

John Young of Dartmouth has been home for a few days.

#### New Coal Storage.

The Davis Coal and Transfer company are showing their progressiveness by erecting three "Hudson Silo" retail coal pockets on the land leased of the Newport board of trade at the foot of Coventry street. The cement foundations, which are seven feet deep, three feet above the surface, were put in by Contractor H. O. Smith of Newport, the contract for the construction above the foundation was awarded Colwell & McMullen of Boston. The silos are placed in a triangular position, being 3 feet high, one 4 feet in diameter, and two 18 feet in diameter, covered with a roof.

Each silo has in the center a standard lowering coal chute to prevent breakage of coal while filling. The coal drops from the car on a sliding into a standard 54 bucket elevator to the top of the silos where it is deposited in a chute through which it slides to the particular pocket the operator wills. The motive power to run the elevator is supplied by a five-horsepower electric motor at the top. The capacity of these pockets is 200 tons. Each pocket is equipped with two standard loading chutes, one for the loading of teams and one for bagging. Each of these chutes is fitted with screens so that every pound of coal taken through them will be screened which every coal purchaser must appreciate. This we are informed is the only plant of its kind in northern Vermont, there being only one or two others in the southern part. They will be in operation this week and Mr. Davis and son, Robert, will be pleased to have the public see this new plant of which they have just cause to be proud.

Mrs. B. H. Mosher of Sherbrooke is visiting her parents, Mr. and Mrs. F. D. Badger.

Mrs. B. O. Spaulding visited her daughter, Mrs. H. Dickens, at Orleans last week.

Madeline Deuel was born to Mr. and Mrs. R. E. Deuel Feb. 1st. This is the cause of that happy expression on the face of the county agricultural agent.

Mr. Gray of Providence, R. I., was in town last week in the interest of an ice company, looking after lumber for building ice houses, which he states will require two million feet.

Mr. and Mrs. C. F. Davis and Mrs. C. M. Flint returned Sunday for a trip to Florida. On her return trip, Mrs. Flint will visit the New York markets and select her stock of spring millinery.

A quiet wedding took place at the home of Mr. and Mrs. H. H. Somers Saturday afternoon where their daughter, Florence Louise, was united in marriage to Harold C. Berry of Milton.

Mrs. M. E. Burns has moved into a suite of rooms recently fitted up for her over the American Clothing company store, where she has special advantages to continue her work of manicuring and hairdressing.

Dr. Milton Butler Pratt, who has a reputation of many years' standing as an orator of more than ordinary ability will lecture Friday night, Feb. 11, on "Abraham Lincoln—His Life and Times." Dr. Pratt comes under the auspices of the Ashbury Brotherhood and will speak at the M. E. church at 8 o'clock.

Mr. Jacques of St. Johnsbury, Metropolitan Life Insurance company superintendent, was in town Thursday and held a district conference which was attended by M. C. Arel, J. Keith and H. E. Drown of Newport, L. J. Hardy of Orleans, C. J. Benway of Richmond, P. I. Clark of North Troy and John Carroll of Island Pond.

Blanche Baker was very much surprised Friday evening on returning from grandma's, and turning on the light in the sitting room to find about twenty of her young friends there to remind her of her ninth birthday. The evening was very pleasantly spent with games and at nine o'clock the party separated, wishing Blanche many more happy birthdays.

The Epworth League entertainment Friday night was fairly well attended. The entertainment consisted of music by McCauley's orchestra and readings by Rev. Douglass of Glover, who is quite an artist in this line. The Ladies' Aid society had previously arranged with Mr. Douglass to assist them March 7th and many will be glad of another opportunity to be royally entertained.

#### Had Him Puzzled.

"A great many people have one time and another declared that I am the double of someone," stated J. Fuller Gloom, "but the deuce of it is that no two of them ever agree on the person whom I resemble."—Kansas City Journal.

#### USURIOUS PROFIT.

In 1850 the proportion of the annual wealth created in the country by the joint efforts of labor and capital was one-fourth to labor and three-fourths to capital. Sixty years later the proportion had changed to less than one-fifth to labor and more than four-fifths to capital. This disproportion, to my mind, has much to do with our present discontent.

Usurious interest is no more, but usurious profit has taken its place. The young man in assuming leadership must create a public opinion and develop a moral sentiment against usurious profit.

I dare the prediction that the railroads of the country would welcome a permanent 5 or 6 per cent accumulative profit in exchange for their greater profit and the doubt, risk and abuse which come with it.

The doctrine of state rights is seldom heralded save in opposition to needed reforms. The doctrine of state rights must be supplemented by the doctrine of state duties. If state rights are to be preserved the young men of tomorrow must take up the cry of state duties.

The old order of education has changed. It furnished a philosophy and taught man that happiness was not in his material surroundings, in position or power, but in his own purposes and conduct. The humanities have been forgotten in the rush for success.—Vice President Thomas R. Marshall.

## GIRLS—DO YOU KNOW WHY YOUR HAIR IS UGLY?

Many women do not realize the necessity of keeping the hair and scalp absolutely clean in order to look their best. And yet, with only a few minutes of tonic massage, the hair may be brought to a beautiful, thick, lustrous luxuriance, and that at very little cost.

Just try these few simple directions today; into the palm of the hand pour a little Parisian Sage, a richly guaranteed, inexpensive and most beneficial preparation to be had at any drug store; thoroughly wet the hair near the scalp with it and then rub vigorously until a soft tingling sensation comes stealing over the head. Do this regularly for a few days and you will surely be surprised and delighted with the results.

The genuine Parisian Sage is obtainable from F. D. Pierce who always sells it with an absolute guarantee of perfect satisfaction to the user or the money paid will be returned.

Sold and guaranteed in Orleans by F. J. Kinney.

## Wanted at Once

A few hundred pounds good Maple Sugar for which we will pay 12c a pound.

Must know at once

#### MONARCH SUGAR TOOLS

Orders are coming in from all parts and we feel that we cannot urge too strongly the necessity of getting orders booked at the earliest possible date, because owing to the condition of the metal market it will be next to impossible to secure more stock when our present supply is exhausted.

#### SECOND-HAND SUGAR TOOLS

We have a number of good second-hand or shop-worn Boiling Rigs that we are offering at attractive prices.

#### BUCKET COVERS

There is a rapidly growing demand for fancy sugar and syrup and this is the kind of goods that yields the very best profits, yet no one can be sure of producing this grade of goods who does not have covers for his buckets. Remember that there are but a few weeks at the longest before sugaring, let us hear from you by mail or phone.

## New Wash Materials are Being Shown For the Spring Sewing

New Gingham, priced	12 1-2c, 19c
New Madras Cloths, priced	12 1-2c, 15c, 25c
New Diana Crepe, "	15c
New Luxura Poppins, "	25c
New Splash Voiles, "	25c
New Voiles, "	17c, 39c, 50c
New Silk Chiffons, "	25c

We shall have a splendid showing of new wash fabrics for spring and summer dresses notwithstanding the fact that goods are very scarce and each year the demand begins earlier. Many ladies like to get the sewing all done before the warm weather. The spring line of laces and hamburgs are also ready for your inspection. Each week there is a slight increase in the price of almost every sort of material. As far as possible we have tried to buy far enough ahead to protect our customers as well as ourselves, but there is bound to be a shortage of some materials as well as higher prices. The customers who buy early will win this year sure.

#### NEW SPRING SUITS

Are being shown in our Garment Department for the benefit of the customers who wish to buy a suit early, and for the customers who like to see the new models early, even though they are not ready to buy. We feel that the best advertising we can do is to show the new goods in every department and the fact that you are not ready to buy will not in the least affect our wish to show you the new suits.

Winter Suits at \$5.95, 7.95, 12.75

Marked from \$12.50 to 35.00

If you will try on one of these suits and then compare with the new spring models you will realize what a bargain you are offered and the styles will be very satisfactory.

#### NATUR L RACCOON COATS AT \$59.00

We received a letter from the firm that made these coats, dated February 2, in reply to an inquiry we made for some more of the same coats, saying they did not have this particular coat on hand and that lowest price they could make on a Ladies' Natural Raccoon Coat for immediate delivery was \$100.00 wholesale. Buy while you can get a coat for one-half what it will cost later. Any lady who rides in an automobile cannot invest \$59. better than to buy a Coon coat for spring and fall. And the lady who drives can't afford to be without one at the price. We can without doubt make money if we carry the coats over, but don't feel we can spare the money to do it.

## The State-Wide Prohibitory Law

TO BE VOTED ON

TUESDAY, MARCH 7

IS NOT THE  
OLD PROHIBITORY LAW

1. Under the old law the minimum penalty for illegal selling was \$5. Under this law the minimum penalty is \$300.  
2. Under the old law there were town agencies in many towns, which were often grossly abused. Under the new law there will be no such agencies.  
3. Under the old law fermented cider could be sold in any quantity, large or small. Under this law it may be sold only by the barrel or cask of not less than 32 gallons capacity, just as it may under the present law.

#### THE PROPOSED PROHIBITORY LAW

Is simply the present law relating to the traffic in intoxicating liquors with its local option, high license features omitted, and its prohibitory features applied to the whole State, just as they now apply to more than nine-tenths of the cities and towns.

If the State-Wide Prohibitory law goes into effect the first day of May, A. D. 1916—

1. In all the cities and towns of Vermont it will be illegal to "manufacture, sell, or expose for sale or keep for sale any intoxicating liquor," exactly as
